写出下列程序的运行结果

```
int main()
  const char *c[]={"John learn C++ language",
                              "Be well!", "You", "Not very"};
   const char **p[] = \{c+3, c+2, c+1, c\};
   const char ***pp=p;
   cout << (**++pp);
   cout << (*--*++pp+4);
   cout << (*pp[-2]+3);
   cout << (pp[-1][-1]+2);
   cout << endl;
   return 0;
```

```
Microsoft Visual Studio 调试控制台
                                                                                                                       You learn C++ language very well!
D:\workspace\2021-spring-sj-TinyHW\Project1\Debug\test.exe(进程 1412)已退出,代码为 0。
要在调试停止时自动关闭控制台,请启用"工具"->"选项"->"调试"->"调试停止时自动关闭控制台"。
按任意键关闭此窗口...
                                          { const char *c[]={"John learn C++ language",
                                                                              "Be well!", "You", "Not very"};
                                             const char **p[]={c+3, c+2, c+1, c};
                                             const char ***pp=p;
                                             cout << (*--*++pp+4);
```
